

## SET OF 5 MULTI-X CONCRETE DRILLS BITS

### Description

Multipurpose drill bit. Adapted for drilling most material technologies during maintenance. .  
"Multi-X" technology enables work on most materials (concrete, masonry units, roof tiling, eternit, multilayer materials, ceramic, tiling, wood, plastic, aluminum, plastic sheeting). .  
The carbide insert, with its centering point, allows holes to be made easily. 118° angle insert allows for better transmission when rotary drilling or percussion drilling . .  
The "Multi-X"'s 4 sided grinding mechanism allows quick penetration of material. Made in France. .  
The set is made up of (qty 1): Ø4x75 - Ø5x85 - Ø6x100 - Ø8x120 - Ø10x120

Strong points

Versatile
