

reducing sleeves

Sealed for IC

Application:

For reducing the clamping diameter.

Execution:

- With adjustable longitudinal stop.
- Sealed for internal coolant supply, for reducing the clamping diameter.
- Concentricity tolerance with collets is 0.003 mm.
- Suitable for all expansion chucks no. 23333, 23335 and 23350.

Advantage:

- For clamping various shank diameters with one single chuck.

Delivery:

1x reducing sleeve.

Art. no.	23336 510
Brand	SCHUNK
Manufacturer Part Number	0207927
Chuck clamping diameter	20 mm
Clamping diameter	10 mm
Collar diameter	24 mm
Collar thickness	2 mm
Length	50.5 mm
Concentricity tolerance	0.003 mm
Coolant supply	Yes
Gross Weight	0.080 kg
Product Group	229
