

Indexable insert for thread milling cutter, male, solid carbide TiAlN full profile 60°

For universal use up to 1300 N/mm², in male thread

ATORN[®]

Application

For producing metric right-hand and left-hand threads on CNC machines, in steel, stainless steel, non-ferrous metals, cast iron and special alloys material groups up to a strength of 1500 N/mm² in single-part production and series production.

Version

- Indexable insert, solid profile, 60° male

Advantage

- Innovative cutting geometry ensures very high dimensional accuracy, process reliability and chip removal
- High-quality cutting material and cutting edge finish
- Low tool costs due to high variability
