

Mechanical handheld tachometer

HTM-100M ATEX

Application:

For contact measurement of rotation speed and surface velocity in environments with a potentially explosive atmosphere.

Version:

- Large analogue display
- Button-actuated pointer lock for saving the last measurement
- Battery-free operation
- Suitable for ATEX zones 1 and 2
- Plastic housing

Delivery:

Tachometer, measuring wheel (0.1 m), measuring tip, hollow measuring tip, extension, operating instructions

Art. no.	39330 110
Max. rotation speed of measuring range (contact)	10 rpm
Error limit (%)	0.5 %
