

3D edge finders

With illuminated display and spring-loaded probe ball

ORION[®]

Application:

For precise alignment of workpiece reference surfaces or edges to determine the bore centre points aligned centrally to the working spindle.

Execution:

- Functional components are hardened and ground.

Advantage:

- 3D version also suitable for approaching the workpiece in the Z direction (vertically).

Delivery:

1x edge finder.

Art. no.	23923 020
Brand	ORION
Manufacturer Part Number	23923020
Sensor design	3-D
Clamp in shank diameter	20 mm
Probe head diameter	10 mm
Clamp in length	45 mm
Length	106 mm
Reading	Light indicator
Repeat accuracy (+/-)	0.01 mm
Gross Weight	0.061 kg
Product Group	298

EAN

4039247162543
