

Gauge slide for electronic length measuring probes FMS

Straight and offset measuring faces

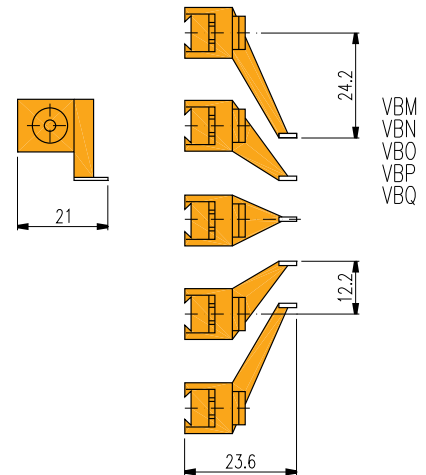

Application:

For applications in multipoint measuring technology. Particularly suitable for measuring tasks in which features are close together. The probes are mounted directly on the electronic length measuring probe FMS.

Advantage:

- Gauge slide can be moved and individually adapted to measuring tasks
- Fastening screw for fixing the gauge slides accessible from above

Art. no.	39658 133
Brand	TESA
Manufacturer Part Number	02630050
Gauge slide type	VBP
Scanning offset to centre axis	12.2 mm
Scanning offset	Left
Probe surface width	0.7 mm
Probe surface height	2.2 mm
Number of rechargeable batteries/batteries	0
Gross Weight	0.019 kg
Product Group	362

EAN

7630041111972
