

Gauge slide for electronic length measuring probes FMS

Straight and offset measuring faces

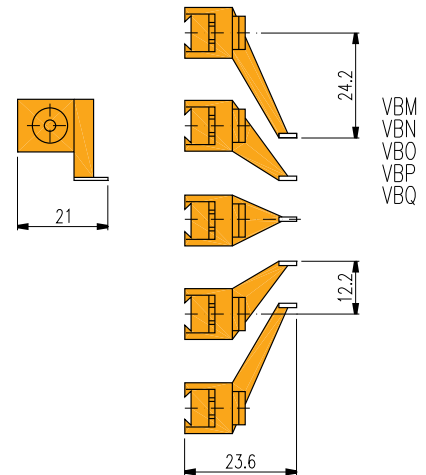

Application:

For applications in multipoint measuring technology. Particularly suitable for measuring tasks in which features are close together. The probes are mounted directly on the electronic length measuring probe FMS.

Advantage:

- Gauge slide can be moved and individually adapted to measuring tasks
- Fastening screw for fixing the gauge slides accessible from above

Art. no.	39658 130
Brand	TESA
Manufacturer Part Number	02630047
Gauge slide type	VBM
Scanning offset to centre axis	24.2 mm
Scanning offset	Right
Probe surface width	0.7 mm
Probe surface height	2.2 mm
Number of rechargeable batteries/batteries	0
Gross Weight	0.020 kg
Product Group	362

EAN

7630041111941
