# Multi-range thread milling cutter with neck recess solid carbide 15° stra**ight shank HA** For universal use up to 1500 N/mm2 in female threads.

## Application

For manufacturing right-handed and left-handed pipe threads in through and blind holes on CNC and conventional machines in the steel, stainless steel, NF metal, cast and special alloy material groups up to a strength of 1500 N/mm<sup>2</sup> in single part and series production.

#### Version

• With collar recess.

### Advantage

Innovative cutting geometry for very high dimensional accuracy, process reliability and chip removal.

• Deep thread depth achievable due to collar recess between thread part and shank.
