

Drum roller, steel cross, powder-coated

For 200-litre drums, load-bearing capacity 250 kg

fetra
Transportgeräte

Application:

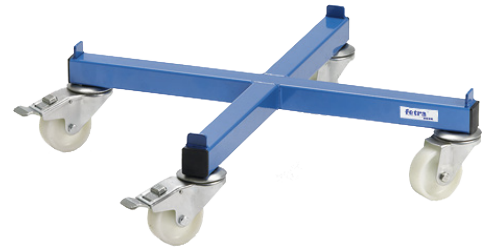

For transporting standing drums.

Execution:

- Welded cross made of square tube, with slip edges
- Cross diameter 610 mm for 200-l drums
- **Ref. no.: 140, 142** cross struts offset downwards, 420-mm diameter for 60-l drums

Advantage:

- Simple solution for transporting drums over short distances
- Easy to manoeuvre thanks to high-quality castors

Art. no.	50267 183
Brand	FETRA
Manufacturer Part Number	13650
Load-carrying capacity	250 kg
Material of loading surface	Steel frame
Material of wheel	Nylon (polyamide)
Wheel diameter	80 mm
With wheel lock	Yes
Number of steering rollers	4
Surface	Powder-coated
Colour	Brilliant blue RAL 5007
Gross Weight	6.000 kg
Product Group	5AB

EAN

40179769 13650
