

APPLICATION

Dishwasher powder for general use.

- Powerful degreasing.
- Prevents glass and metal corrosion.
- In moisture- proof resealable bucket.
- For use in domestic and semi- industrial machines.
- Citrus perfume.

Crystal Powder is an ecological dishwasher powder for professional use. This product is suitable for use in household and semi-industrial machines. This mildly alkaline product contains fully biodegradable water softeners to prevent formation of limescale deposits. It is free of corrosive substances, so glassware and hotel chinaware are not damaged. Crystal Powder does not affect water lines, rubber or stainless steel. Crystal Powder is free from chlorine compounds, other halogen compounds, and petroleum-based surfactants. All surfactants used in these products originate from vegetable sources. All ingredients of non-mineral origin are fully biodegradable.

INSTRUCTIONS FOR USE

Semi-industrial machines Add Crystal Powder directly to the heated wash water, and then start the wash cycle immediately to prevent formation of deposits on the bottom of the machine. - normally soiled dishes: 100 g (3 capfuls) per 10 L of wash water - heavily soiled dishes: 200 g (6 capfuls) per 10 L of wash water Replenish the dose after a maximum of 10 dishwasher loads. For best results, wash with softened water. Refill the rinse aid reservoir regularly with Crystal Rinse. Use Crystal Calc regularly to remove limescale deposits from the machine and the sealing gaskets. Domestic machines Fill the dispensing compartment for the main wash cycle. Refill the rinse aid reservoir regularly with Crystal Rinse. Check the level of the Crystal Salt regeneration salt. 1 scoop = 35 g. Keep in a dry place, and always close the lid after use.

TECHNICAL SPECIFICATIONS

appearance	Powder
colour	White - Yellow
odeur	Citrus perfume
solubility in water	Good
pH-value	11
relative density 20°C	0,96 Kg/L
safety	ADR UN 3262
