

TRITEST Pro rotation field direction indicator

BENNING

Application:

For testing the rotation field direction in three-phase networks.

Execution:

- Displays “clockwise” or “anticlockwise rotation field” via green/red LED
- Displays phase voltages L1, L2 and L3 via red LED
- Powerful high-performance LED pocket torch
- Integrated magnet holder and belt clip on back of housing

Delivery:

Incl. three attachable 4 mm test tips and an alligator clip

Art. no.	75021 101
Brand	BENNING
Manufacturer Part Number	020052
Display	LED
Min./max. voltage range AC	400-500 V/AC
EN standard	61557-7
Overvoltage protection category	CAT III/300 V
Phase sequence test	Yes
Gross Weight	0.269 kg
Product Group	7AH

EAN

4014651200524
