

Wire cable and cable cutters, high lever transmission

Handles made of forged aluminium, diameter up to 20 mm

Application:

For cutting copper or aluminium electrical cables with steel core.

Execution:

- Hardened high-quality steel blades and connection parts, forged aluminium handles with lifelong guarantee
- Case-hardened blades

Advantage:

- Even cutting without pinching or prior tying of cables thanks to triangular cutting
- Easy cutting thanks to optimum lever action

Art. no.	53342 020
Brand	FELCO
Manufacturer Part Number	C16E
Model	C 16 E
Length	630 mm
Max. medium wire diameter cutting capacity	20 mm
Surface	Chrome plated
Material of handle	Plastic
Gross Weight	2.900 kg
Product Group	546

EAN

0783929300047
