

WHEELED TOOLBOX

Version 06/13

Item no. 40 54 01

Intended use

This mobile toolbox enables the organized and neatly arranged storage and transport of tools and accessories and is ready for use at any time. This product is equipped with a practical telescopic grip and two rollers in the bottom and can therefore be comfortably and easily moved. The toolbox also offers room for office materials, documents and a laptop computer.

For safety and approval purposes, you must not rebuild and/or modify this product. If you use the product for purposes other than those described above, the product may be damaged. Read the instructions carefully and keep them. Make this product available to third parties only together with its operating instructions.

This product complies with the statutory national and European requirements. All company names and product names are trademarks of their respective owners. All rights reserved.

Delivery content

- Toolbox (with 2 keys)
- Operating instructions

Safety instructions

Read the operating instructions carefully and especially observe the safety information. If you do not follow the safety instructions and information on proper handling in this manual, we assume no liability for any resulting personal injury or damage to property. Such cases will invalidate the warranty/guarantee.

a) Persons / Product

- The device is not a toy. Keep it out of the reach of children and pets.
- Do not leave packaging material lying around carelessly. These may become dangerous playing material for children.
- Protect the product from extreme temperatures, direct sunlight, strong jolts, high humidity, moisture, flammable gases, vapours and solvents.
- Do not place the product under any mechanical stress.
- Always pay attention to the maximum load capacity. Overloading can lead to damage to the product as well as to accidents and injuries.
- Please handle the product carefully. Jolts, impacts or a fall even from a low height can damage the product.

b) Miscellaneous

- If you have questions which remain unanswered by these operating instructions, contact our technical support service or other technical personnel.

Equipment

a) Exterior

- Mobile toolbox with practical telescopic grip and two inline rollers
- Case shell made of HDPE
- Aluminium frame with protruding edge guards
- Two lockable clamp locks
- PROFI combination lock
- Comfortable carrying handle
- Hinge cover
- Safety cover holder

b) Interior

- Document compartment in A4 format
- Variable bottom shell
- Removable cover plate for the bottom shell with 15 pockets
- Two removable tool trays in the cover with 23 pockets on the front and back sides

Configuring the combination lock

1. The combination lock is set to "000" upon delivery. The adjusting lever for the combination lock is situated inside the case behind the number rings. Open the case and set the adjusting lever from position "B" to position "A" while the case is open.
2. Set your new three-digit number combination. Note down your number combination and keep it in a safe place.
3. Place the adjusting lever to Position "B" again while the case is open.
4. Your lock is configured to the number combination you have selected and is ready for use. You may now close the case.
5. Turn one or more of the number rings from the combination positions you selected so that the locking mechanism can take effect. Enter your number combination in order to open the case.
6. In order to change your combination, carry out the described procedure again.

Close and open the case in the following order:

Open: First the combination lock, then the normal locks

Close: First the normal locks, then the combination lock.

Maintenance and cleaning

- Remove the dust with a dry dust cloth.
- Use a slightly damp cloth in the event of heavy soiling. Then dry off all parts thoroughly.

Disposal

At the end of its service life, dispose of the product according to the relevant statutory regulations.

You thus fulfil your statutory obligations and contribute to the protection of the environment.
