

Technical Data Sheet

SX Premium Silicone Spray Instant high gloss releasing agent

Product Description

An instant high gloss spray which can be used in a multitude of applications. It is both oil and fat free enhancing its good lubricant, anti-static and releasing agent capabilities. It provides protection from oxidisation and corrosion and may be used to repel water. It also has excellent high temperature and electrical resistance.

Benefits

- Instant high gloss
- Protects from oxidisation and corrosion
- Repels water
- Excellent high temperature and electrical resistance

Applications

Instant gloss spray – can be used on PVCu, upholstery, rubber and plastic trims, wood and metal surfaces and is an ideal renovator for car interiors and vinyl trim. Lubricant – can be used on most plastics, synthetic and natural rubber, plastic bearings, textiles and fibres. Releasing agent – can be used in plastic injection moulding, fibreglass moulding, footwear manufacturing, ceramic ware production and on hot oven shelves.

Directions Of Use

Shake the can vigorously. Hold can upright, approximately 20cm from the surface. Spray lightly over the surface to achieve the required level of finish. Rub with a soft cloth and repeat this as required. Do not spray directly onto hot surfaces. Remove any

excess product with a dry cloth and wash area with plenty of soapy water.

Additional information

Base		Silicone oil
Density		0.579
Extrusion rate gs		1.1
Frost resistance during transportation		Up to - 15°C
Pressure at 20c bar		5.6
Pressure at 50c bar		10.7

These values are typical properties and may vary +/-3%

Limitations

Surface Preparations and Finishing

Surfaces must be clean, dry and grease free. A patch test on a hidden area is recommended.

Cleaning

Issue7/01.01.16/0206.6.S
