

Features

- Designed for use with AC contactors
- Crafted to suppress voltage spikes
- Combination of a resistor and capacitor interconnected
- Smooth operation
- Peace of mind.

RS PRO RC Surge Suppressors – 24V ac to 400V ac

RS Stock No: 250-8765, 250-8766, 250-8767, 250-8768

RS PRO Professionally Approved Products bring to you professional quality parts across all product categories. Our product range has been tested by engineers and provides a comparable quality to the leading brands without paying a premium price.

Contactor Accessories

Product Description

Introducing the RS PRO RC Suppressors, your ultimate solution for protecting your electronic circuits from voltage transients. Designed for use with AC contactors these passive electrical circuits are strategically crafted to suppress voltage spikes that could harm your valuable components or disrupt system performance. With a clever combination of a resistor and capacitor interconnected in parallel or series, our AC suppressors ensure smooth operation and peace of mind.
